

AXELMEISELICHT OCCHIO

Occhio Letto wall lamps provide a lighting solution for use in the guestroom. Available with white or coloured light the choice of the reflector head defines the evolvement of the light. Direct reading lights with glare-free lenses can be combined with the soft diffused lighting of the satinised glass. The rotating arms in conjunction with the turnable reflector head result in optimal positioning of the lamp. Different mounting possibilities, various connection and operation possibilities, together with the optional dimming function create highest lighting comfort.
